

WELCOME TO THE JUNGLE

LAUREN BURNS

From the concrete jungles of New York to the arid expanses of L.A., the theme this summer will be the torrid, rough and untamed echoes of the safari. Look for suggestions of wild animal skins lashed to a canvas of sultry prints that evoke India, Africa and the jungles of Latin America. Rich, saturated magenta, gold, rust and deep teal present a vivid tableau against such basics as olive, espresso and, most important, khaki. Avoid the temptation to clash these colors with the brighter hues of this spring. Accessorize with the earthy, natural tones of hardwood, horn and hemp.
